When Science Reveals a Family Secret - DNA Registries and the Implications For The Trust and Estate Practice

Date and Time:

Tuesday, February 8, 2022
9:00 am – 10:30 am EST

Location:

ZOOM

Zoom Link will be sent with RSVP Confirmation.

Speaker Information

Jennifer Hillman, Esq.

Jennifer Hillman is a Partner at Rivkin Radler LLP. She will be speaking on this interesting and timely topic: When Science Reveals a Family Secret - DNA Registries and the Implications For The Trust and Estate Practice. Chances are that you or a family member has undergone a genetic data analysis through one of the many DNA analysis services out there. The results can be interesting and informative. This program will delve into some of the far-reaching implications in the context of trusts and estates including paternity, heirship and ethical considerations.

*****CLE Credit will be offered for Members with active membership*****
