You can make plans, write down goals, dream big – but none of that matters if you can't execute. How do you close the gap between results planned and results delivered, especially in these unprecedented times?

Join us for an in-depth look at the art of execution: how to get out there every day and implement the strategies to *get things done*. Whether you're looking to reinvent your organization to adapt to our new world, bounce back after lost productivity and revenue, or otherwise make an impact, this seminar will help you translate words and thoughts into action.

Based on Long Island business leader Joe Campolo's take on Larry Bossidy and Ram Charan's bestseller *Execution*, this presentation will cover:

- Setting clear goals and priorities, particularly in these challenging times
- Building blocks of execution
- Follow through
- Shifting the culture at your organization
- Expanding capabilities
- Linking people, strategy, and operations to get things done
